

FloorworX Open Day a great success

As South Africa's largest supplier and manufacturer of high quality vinyl floorcoverings, FloorworX held its first Open Day on 14 October 2009, focusing on vinyl cleaning and maintenance with Safic floorcare products, vinyl welding, the introduction of the new Quick-Step Parquet range and the ever popular dust-free sanding of Kährs engineered wood with the Bona dust care system.

The open day was jointly organised by FloorworX, Interior Wooden Floors and Safic. In line with its policy of always keeping up with the latest news and development, staff from *FLOORS in Africa* also attended the event and sponsored a gift.

More than 200 FloorworX customers – architects, flooring contractors, government representatives from Infrastructure Development, Health and Public Works, as well as Eskom decision-makers enjoyed this enlightened day with the company.

Highlights of the programme included the closing session during which time a lucky draw for a weekend away and Quick-Step flooring was won.

Mercy Machiridza from Turner Pierson won a weekend break to the value of R5 000 sponsored by FloorworX, and the prize of a Quick-Step flooring voucher to the value to R5 000 from Interior Wooden Floors was won by H.J. Mynhart – director of Top Carpets, Potchefstroom.
