QUICK-STEP CLASSIC MATCHING ACCESSORIES

Quick-Step Incizo® Profile

The profile with Incizo® technology provides a simple solution for a perfect finish to your Quick-Step® floor. You can create any profile imaginable with the knife supplied: expansion profile, adapter profile, transition profile and also an edge profile. Furthermore the Incizo® profile can also be used to finish your stairs. The Incizo® profile provides a handy and economic solution.

Expansion Profile

The Quick-Step® expansion profile is used to join two floors in: doorways, door openings, L-shaped rooms or rooms where the floor is greater in distance than 12m in length or width.

Adapter Profile

The Quick-Step® adapter profile ensures a smooth transition from a Quick-Step® floor and an alternative floor covering at a lower height, like tiles, vinyl or parquet.

Edge Profile

The Quick-Step® edge profile is used to finish the edge of a floor against a vertical surface such as sliding doors, low open windows, a slightly higher doorstep or tiled floor.

Transition Profile

The Quick-Step® transition profile can be used to cover the transition to a fixed carpet, for example.

Stair Profile

You can also cover your stairs or steps with Quick-Step® planks, in combination with the Incizo® profile as a stair nose. In this case, an aluminium sub-profile for application on stairs is needed, to be ordered separately.

Specifications

- Excellent wear and scratch-resistant laminate surface
- No inconvenient seams compared to other multi-functional profiles
- Watertight glued HDF base
- Multi-functional rail supplied can be used in installations with considerable height differences, by bending the lip
- Matching accessories, the Quick-Step® Incizo® profile is available in a design and surface structure that matches your floor perfectly
- Economical, so there is less waste
- Easy, therefore another added benefit of this multi-functional profile is that you always have the right solution on hand
- Complete package, the rail and the knife are supplied together with the multi-functional profile
