### SUGGESTED SPECIFICATION

Supply and fix 2.0mm thick x 2.0m wide iQ Granit SD non-directional static dissipative vinyl sheeting. manufactured in accordance with EN 649 and laid over an earthed grid of aluminium or copper tape in FloorworX No. 27 acrylic conductive adhesive which has been spread using a TKBA2 trowel on a previously prepared Class 1 sub-floor in accordance with SANS 10070, using a reliable Self Leveller when required. including all cutting and waste. iQ Granit SD sheeting must be rolled in both directions with an articulated 68kg three- sectional roller immediately after it has been laid into the adhesive. Joins must be butted, grooved and heat welded using the manufacturer's welding rod, ensuring that the welding rod bonds to more than 70% of the sheet thickness. After completing the installation the floor must be electrically tested for resistivity in accordance with the requirements of SANS 6160.
